Plaza North - Suite 206  
Englewood, Colorado 80111-2494

Confidential Claim Retracted

Authorized by: SC

Date: 6/12/13

Dear John:

I am enclosing several documents which were recently shipped to the Pueblo. They are:

- AMC's letter to Marc Nelson dated April 13, 1983 (with attachments);
- "Highwall Slope Stability North Paguete Area - Anaconda, New Mexico - Operations Cibola County, New Mexico", Seegmiller International, published January, 1983;
- Evaluation of Hydrologic Effects Resulting from Pit Backfilling Jackpile-Paguete Uranium Mine, New Mexico = for Anaconda Minerals Company", Domes & Moore, published March 23, 1983;
- "Radiological Impacts of Jackpile-Paguete Uranium Mines - An Analysis of Alternatives of Decommissioning", Argonne National Laboratory, published March, 1983.

All of these studies address the heart of the Pueblo's concerns with the reclamation of the mine. The Natural Resource Committee members are presently reviewing the studies. We would like to discuss them with you prior to our next meeting with Anaconda Minerals Company. Please let me know what your schedule looks like for the week of May 9th so that we can plan a meeting.

Sincerely,

PUEBLO OF LAGUNA
